

Dear Parents/ Carers,

I hope this letter finds you well. We have had another busy week preparing school for September and continuing to welcome in our key workers and vulnerable children into school.

Each child will have received an email earlier in the week inviting them and a parent/carer to school to collect their report and transition documents. Thank you in advance for helping to keep everyone safe and following the social distancing guidelines during these sessions. Please email school if you have not received this and we will resend it for you. ([Holytrinityrosehill@sbcschools.org.uk](mailto:Holytrinityrosehill@sbcschools.org.uk)) There are lots of fun activities here for you to enjoy including many more within your child's year group folder.

Kind regards,

Mrs Whelerton

Deputy Head Teacher

### Fruity frozen yogurt bites recipe

#### **Ingredients**

- 50g strawberries
- 80g pack mango and pineapple fingers
- 1 kiwi fruit, halved
- 500g Greek yogurt
- 1½ tbsp fruit coulis

Not only are they colourful, fun and delicious, but they are also healthy, relying on the natural sweetness of fresh fruit so you don't need to add any additional sugar! Perfect as a snack or as part of a birthday party spread, these frozen treats are sure to be a favourite for kids and adults alike.

#### **Method**

1. Line a 12-hole muffin tin with cupcake cases. Let children use a butter knife to chop the strawberries, mango and pineapple into bite-size pieces. Scoop out the kiwi flesh with a dessert spoon and then children can chop with a butter knife. Set the fruit aside.
2. Put a dollop of yogurt in each cupcake case, so that each is about a third full.
3. Using a teaspoon, dot a little fruit coulis on top of the yogurt in each case, then swirl with a teaspoon. Arrange the chopped fruit on top. Transfer the muffin tin to the freezer for 2½ hrs, or until completely frozen. Remove the cases from the tin (see tip) and serve on plates or in their cases.

Tip: If the paper cases are stuck to the bottom of the tin, fill your sink with a couple of centimetres of hot water. Dip the base of the tin in the water for 2-3 secs to release.

## How to Make an Origami House

Origami is the art of paper folding.

You can make your very own Lockdown origami house. You can decorate it with pictures showing how you have spent Lockdown- maybe pictures of the games you've been playing or the people you have seen.

<https://www.youtube.com/watch?v=eEsx799dz8c>

Step 1. Cut a piece of A4 paper to 21 cms square.

Step 2. Then fold it in half.

Step 3. Fold it in half again.

Step 4. Open up the paper and fold the outside edge into the middle. Repeat with the other side.

If you open up the house you could draw and write your feelings and thoughts about Lockdown inside. These will be hidden as you refold the paper to its house shape!

## Candy Rainbow

Here is a fun project you can try with coloured sweets you have. You will make some amazing art using nothing but coloured sweets and hot water—and a little bit of science. Remember ask an adult to help you when pouring hot water.

Can you make a rainbow, and put it in your window ?

### The Lighthouse Keeper's Lunch

You might have a copy of this story at home. If not, don't worry as here is a link for you to use to hear the story.

<https://www.youtube.com/watch?v=46wCRq50Wwg>

### Get Creative!

Why not have a go at making your own light house? You could make it out of junk model materials. You could use a plastic bottle or kitchen roll tubes or try out your own ideas.

### Write a List

Mrs Grinling will have to go shopping to make sure she has enough food to pack for her husband. Can you help her to remember what she needs to buy? Write a shopping list of food which you might put in a picnic basket.

### Memory Game

Can you play this fun game with members of your family?

Decide which person is going to go first.

They need to say "I went shopping and I bought ... ( add an item of food).

The next person says the same sentence but adds an extra item of food.

The next person says the same sentence and adds another item of food.

How long can you make your list?

### Maths Challenge

1 Helen has £400

She spends  $\frac{1}{10}$  of the money on a new toaster.

She spends  $\frac{1}{8}$  of the amount left on a pair of trousers.

Which item costs the most?

2  $\frac{3}{8}$  of people watching a play are adults.

The rest of the people watching are children.

There are 32 more children than adults watching the play.

How many people are watching the play in total?

### WHAT'S THIS CRITTER THINKING?

Gain an insight and appreciation of diversity of life that surround us. In this activity to you will approach the world from someone else's perspective, as well as working on your vocabulary - and, of course, getting some exercise in the fresh air. Grab a clipboards and get outside and find a little bug, insect or other creature. When you've found one, list **three** thoughts that the critter might have.

What role do certain animals or creepy crawlies play in our ecosystem? What is their place in the food chain, and what sits above and below them? What other roles do they fulfil?

|    |                          |    |                           |
|----|--------------------------|----|---------------------------|
| 1  | Make paper airplanes     | 26 | Make scratch art          |
| 2  | Make slime               | 27 | Make your own bookmarks   |
| 3  | Play board games         | 28 | Make play mud             |
| 4  | Finger paint             | 29 | Put on a fashion show     |
| 5  | Have a movie day         | 30 | Make salt dough           |
| 6  | Play marbles             | 31 | Make dinner together      |
| 7  | Learn about a new animal | 32 | Salt painting             |
| 8  | Make a thankful jar      | 33 | Make indoor Hopscotch     |
| 9  | Learn to draw            | 34 | Make friendship bracelets |
| 10 | Learn to knit            | 35 | Paint leaves              |
| 11 | Play noughts and crosses | 36 | Make a tissue box monster |
| 12 | Build an obstacle course | 37 | Make chalk ice            |
| 13 | Learn a new language     | 38 | Do a brain teaser         |
| 14 | Play I spy               | 39 | Play Simon says           |
| 15 | Make suncatchers         | 40 | Have a dance party        |
| 16 | Make playdough           | 41 | Learn a new card game     |
| 17 | Do a puzzle              | 42 | Learn about a country     |
| 18 | Build your own game      | 43 | Do a science project      |
